
Winter Community Coffee

Come Join Us!

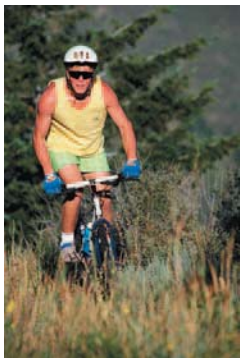
A Winter Community Coffee will be held on **December 12, 2006** at **Meadowmere Elementary School** from **6:00 p.m. to 8:00 p.m.** The focus of the Winter Coffee will not be right-of-way and automobile access. Instead it will specifically be about:

- Noise
- Sound walls
- Landscaping
- Bike provisions
- Pedestrian needs
- Lighting
- Other amenities

Like previous Community Coffees, the Winter Coffee will be informal and you are welcome to come and go as you please. We encourage you to attend and to share your thoughts with staff.

Community Coffees are public open houses that give corridor residents, property owners, developers, neighborhood groups, and other stakeholders an opportunity to discuss specific issues related to the design of Route 150 with MoDOT and the Design Team.

Four Coffees have been held thus far in the design process.



Any person with disability desiring reasonable accommodation to attend this meeting may:

Contact Mary Miller, P.E., Transportation Project Manager at 622-6570 or

Dial 711 at 1-800-735-2966 (Missouri Relay TT for persons who are deaf and hard of hearing) at least 24 hours prior to the meeting or event.

What You'll See

Enhanced Roadway Character

MoDOT recognizes that the Route 150 Widening project's budget is only large enough to manage the costs of right-of-way, traffic signals, lighting at intersections and medians, and noise mitigation measures. However, enhancements like multiuse trails, sidewalks, landscaping, additional lighting, and more would improve the overall character of the corridor in terms of its look and feel.

During the Winter Community Coffee, you will have an opportunity to review photos and sketches of the amenities tentatively planned for the corridor based on the comments collected from the community, stakeholders, and local officials.

Comments

Fall Open House Results

An open house public meeting was held for the Route 150 Widening project in September at Meadowmere Elementary School in Grandview. During the meeting tentative right-of-way, access control and noise plans were presented. The event marked the corridor community's first opportunity to review and comment on the way in which the widening project would likely impact their individual properties. More than 150 people attended the meeting, and like previous public meetings, popular comments related to access, noise and sound walls, and bike/pedestrian accommodations.

Winter Community Coffee

On Tuesday, **December 12th, 2006** from 6:00 p.m. to 8:00 p.m. at **Meadowmere Elementary School** located at 7010 E. 136th Street, Grandview, Missouri 64080.

Roadway Design is Happening

Project Overview

The Missouri Department of Transportation (MoDOT) plans to widen an 8-mile section of Missouri Route 150 from Missouri Route 71 to Missouri Route 291. The project is being funded with Amendment 3 dollars totaling approximately $30 million. Missouri voters approved Amendment 3—Smoother, Safer, Sooner—in 2004 to enhance the condition and accelerate the completion of the state's priority road and bridge projects. The project will involve the development of a plan for access management, preliminary design, right-of-way design, bridge design, and final design.
