

March 22, 2011

Dear Consultant:

The City of De Soto is requesting the service of a consulting engineering firm to perform the construction engineering service for the federally-funded Main Street Enhancements Project.

If your firm would like to be considered for this service, you may express your interest by responding to the City Manager of the City of De Soto.

As a part of the scope of services, please note that the DEB goal is zero for this project.

Limit your letter of interest to no more than two pages. This letter should include a statement to indicate why your firm is interested in the project. Along with your statement of qualification, please include the e-verify and affidavit of compliance. Your proposal should include any other information which might help us in the selection process, such as the persons or team you would assign to the project, the backgrounds of those individuals and other similar projects your company has recently completed or are now active.

We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information.

We request all letters be received by 1:00 p.m., April 13, 2011 to the City Manager's office.

Sincerely,

David Dews
City Manager
