

Safe & Sound Bridges In Mid-Missouri

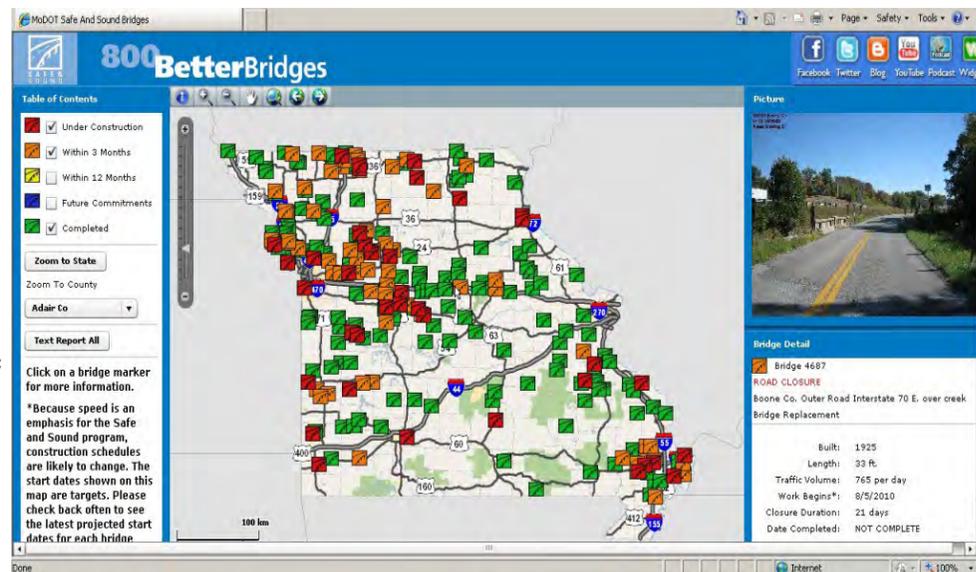

The following shows the location of mid-Missouri bridges included in the Safe & Sound program.

For details, log onto www.modot.org/safeandsound.

Construction Status

Go to www.modot.org/safeandsound to learn more about the Safe & Sound program. An interactive map showing the status of bridge improvements is available online. To talk with a member of our staff, call 1-888-ASK-MoDOT (275-6636). You can also sign up for MoDOT's e-update system (www.modot.org) and receive project updates customized to your preference — by specific county or region of the state.

Signs of Improvement

Safe & Sound signs are posted on all bridges included in the program to notify the public of bridges scheduled for improvement. Prior to the start of construction, signs displaying a brief description of the work as well as the completion season and year will be installed. Check the web site or call MoDOT to get the latest projected start dates for each bridge.

800 BetterBridges

Community Briefing

Maries County Courthouse, 211 Fourth St, Vienna, Mo.
 Dec. 16, 2010, 4:30 to 6:15 p.m.

Frequently Asked Questions

1. What is the Safe & Sound Bridge Improvement Program?

Safe & Sound will replace or rehabilitate 802 of MoDOT's most worn-out bridges in five years — by the end of 2013. Bridge improvements began in early 2009 and over 300 are already completed. MoDOT is completing 248 bridges using innovative contracting methods. The other 554 bridges are part of a \$487 million design/build contract with KTU Constructors. Bonds will be sold to pay for the bridge work, with annual payments of about \$50 million. MoDOT will use one-third of the federal bridge placement funds it receives annually to make payments.

2. How many bridges are included in the Safe & Sound program in the central Missouri area?

Ninety bridges in the central Missouri area are included in the program. Tonight's meeting will focus on five bridges in Maries County that are scheduled for construction during 2011.

Route 28, Dry Fork Creek, located two miles south of Route Z

Route 42, Mill Spring Creek, located 4.5 miles east of Route Z

Route A, Spring Creek, located just south of U.S. 63

Route V, Little Fly Creek, located 1.5 miles south of Route 42

Route BB, Little Maries River, located two miles west of Route 133

3. What type of improvements are planned for the bridges featured at tonight's meeting?

All five bridges will be completely replaced. Some temporary easements may be needed at some locations.

4. When will work take place?

Because construction crews across the state are moving from one bridge to another at an accelerated pace, construction schedules are likely to change. The start dates will fluctuate as the contractor progresses from bridge to bridge. Check the Web site or call MoDOT to get the latest projected start dates for each bridge. You can also sign up for MoDOT's e-update system (www.modot.org) and receive project updates customized to your preference — by specific county or region of the state.

5. How will traffic be handled during construction?

To speed construction and save money, the bridges will close completely during construction and motorists will need to find alternate routes around the work area. Each bridge is expected to remain closed for anywhere between 36 and 66 days.

6. Who do I contact for more information?

The public is always encouraged to contact us toll free at 1-888-ASK-MoDOT (275-6636) with questions and comments. Information about Safe & Sound and a complete listing of bridges included in the program can be found at www.modot.org/safeandsound.

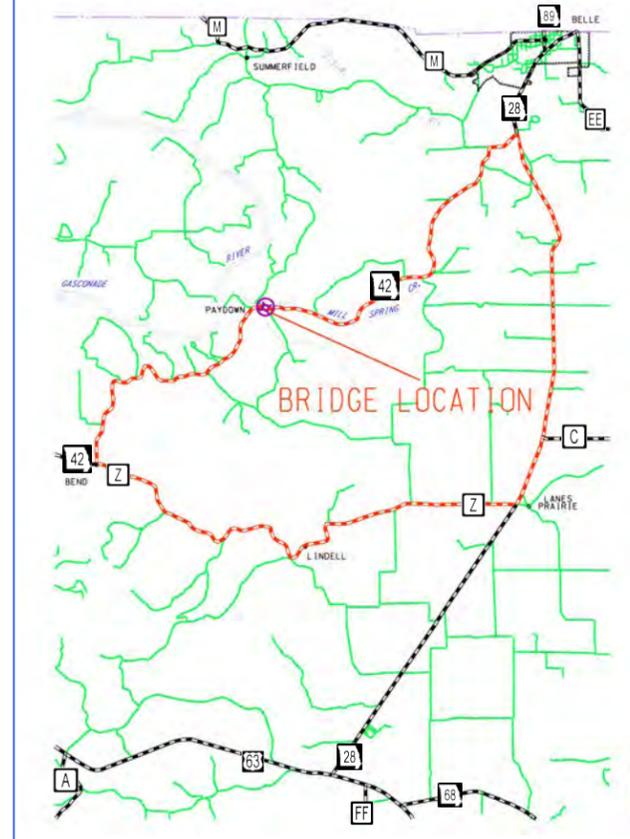

**Maries County, Route 28
Dry Fork Creek Bridge**

Bridge Replacement. Closure duration is approximately 36 days.
State route signed detour is U.S. 63, Route 42 and Route Z

**Maries County, Route 42
Mill Spring Creek Bridge**

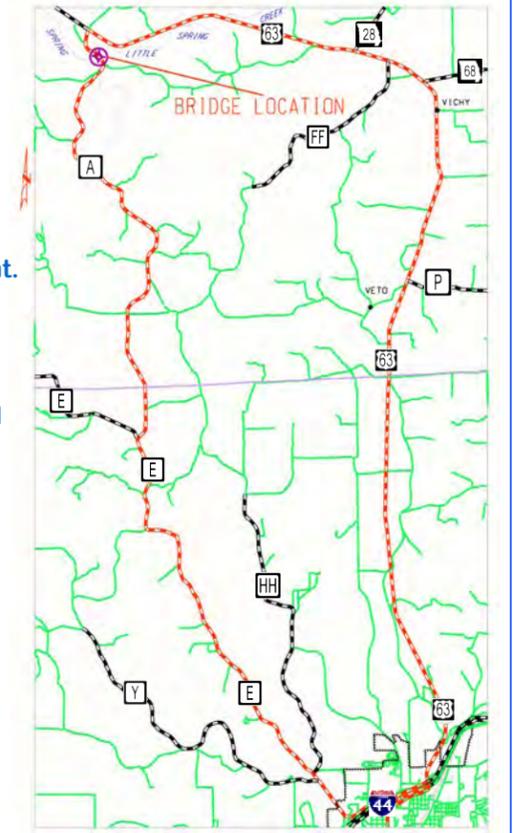

Bridge Replacement. Closure duration is approximately 36 days.
State route signed detour is Route 28 and Route Z.

**Maries County,
Route A
Spring Creek Bridge**

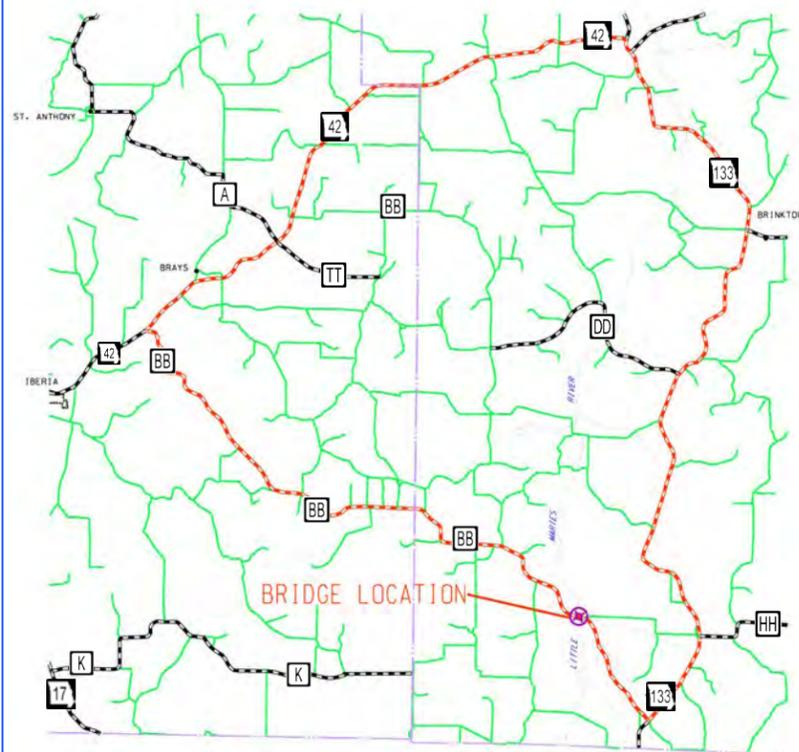

Bridge Replacement. Closure duration is approximately 66 days.

State route signed detour is U.S. 63, I-44, and Route E.

**Maries County, Route BB
Little Maries River Bridge**

Bridge Replacement. Closure duration is approximately 36 days.
State route signed detour is Route 42 and Route 133.

— DETOUR

**Maries County,
Route V
Little Fly Creek Bridge**

Bridge Replacement. Closure duration is approximately 36 days.

Signed state route detour is U.S. 63, Route 28, and Route N.
