

“Get to Know MoDOT”

Meetings Slated for Disadvantaged Businesses

If a picture speaks a thousand words, a face-to-face meeting may be worth millions. MoDOT will host two regional meetings in the coming weeks to help disadvantaged businesses and MoDOT staff get to know each other better. The after-hour mixers in St. Louis and Kansas City will give both groups a chance to put faces with names, gather insights on how to be a successful contractor and generally build stronger relationships. All interested women and minority owned businesses are encouraged to attend. Plans are already in place to expand the mixers to more cities in 2013.
