Route N Bridge Over Walnut Creek Cass County

What's the Problem?

The Route N Bridge near Creighton is old and in poor condition. The bridge was built in 1900 and carries more than 500 vehicles per day.

What's the Solution?

The existing bridge will be replaced with a new structure. This requires a complete road closure.

What Impact Will That Have on My Travel?

During construction, the road will be closed to traffic near the bridge. Signed detours will be in place during the bridge closure. (See back for detour map). The detour is on Route 2, Route 7, Route Z and Route ZZ.

Closing the bridge allows the contractor to complete the work quickly and get the bridge back open faster. It also keeps our costs down. Full closures reduce cost by minimizing the need for additional right of way and for costly roadway work. Every bridge that's closed during construction allows us to work on another bridge in need of attention.

What's the Time Frame?

Work is expected to get underway May 14. The bridge is expected to open by mid-July, weather permitting.

Other Cass County Bridges:

To date, 14 bridges in Cass County have been completed. This year, MoDOT will replace the remaining five bridges, including this one. Cass County will receive 19 replaced or rehabilitated bridges thanks to the Safe & Sound Bridge Improvement Program.
