

Draft FTEIS

What is a First Tier Environmental Impact Statement (FTEIS)?

- ✓ MoDOT has prepared a Draft FTEIS document for the potential improvements to I-70.
- ✓ It details the Study Team's process of evaluating the strategies for improving I-70.
- ✓ The National Environmental Policy Act (NEPA) requires it for Federal projects that significantly affect the quality of the human environment or natural environment.
- ✓ It evaluates potential environmental effects of the strategies.
- ✓ All environment effects discussed in the Draft FTEIS are subject to further update and evaluation during Second Tier Studies. Impacts for the Identified Preferred Strategy are for the wider possible footprint from I-435 to I-470.

How do I Review the Draft FTEIS?

- ✓ Copies are available for review at this **Public Hearing**.
- ✓ The entire document is posted on-line on the **project web-site**.
- ✓ Copies are available for review at:
 - MoDOT District IV Offices
 - Kansas City Public Library Central Branch
 - Mid-Continent Public Library South Independence Branch
