

IMPROVE KEY BOTTLENECKS STRATEGY

This strategy package includes everything in the No-Build package plus improving the key bottlenecks. The strategy includes:

- Road Improvements:**
- Rebuild and/or rehabilitate I-70 and the entire downtown loop with a design life of 30 to 50 years
 - Downtown loop lane balance improvements
 - Improve the Jackson and Benton curves within existing right-of-way to the extent possible
- Interchange Improvements:**
- Improve interchanges by addressing ramp lengths, merge areas, and weave sections
 - Consider interchange additions, consolidations, modifications, or eliminations to improve traffic flow and safety
 - Rebuild the I-70/I-435 Interchange to provide six lanes on I-70 and six lanes on I-435 through the interchange
 - Add collector distributor roads on I-70 and I-470 through the I-70/I-470 Interchange
- Transit and Other Improvements:**
- Integrating Operation Green Light on parallel routes
 - Improve incident management response times
 - Enhance I-70 express bus service, provide for bus transit on shoulder, and explore locations to add park and ride lots as necessary
 - Community bridges
